

What To Expect On Your SOS Tour

- **Available Tour Times.**

- Tours can be scheduled Monday through Friday, starting at 4:15pm.

- **We Encourage You To Bring Your Child.**

- It might be beneficial to have your child see and experience our center. Having them come is often an important consideration in determining the likelihood of a Center being a good match for your child.
- If you are concerned about your child's behavior on a tour, don't be – it's part of what we do and we want you and your child to feel comfortable to come and explore our Center.

- **Is There Anyone Else That Would Have An Interest in Your Child's Care? Invite Them To Come To The Tour Also.**

- If there are other family members, friends, or healthcare professionals that you think would benefit from coming on the tour, please have them come too.

- **Observations and Thoughts? Let Us Know.**

- Throughout the tour, please let us know of any observations, questions, or concerns you may have. Feel free to interrupt the tour at any time to let us know.

- **Next Steps After the Tour.**

- Following the tour, please let us know what you would like next steps to be – you're in control. Additional consultation? Verify insurance? Move forward with starting services?

- **Conveniences and Other Considerations.**

- We have covered parking, an elevator, drinks, snacks, and large restrooms available.
